An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Norman Klivans, Reg. No. 33,003, on November 9th, 2006.

The application has been amended as follows:

IN THE CLAIMS:

Claim 7, lines 14-15: delete the phrase "from a first to a second non-zero value"

Claim 7, line 20: after "adjust" insert: -- from a first to a second non-zero value --

Allowable Subject Matter

Claims 3, 4 and 6-8 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record teaches most aspects of a light emitting device; however, the prior art of record neither teaches nor reasonably suggests a light-emitting device wherein the light emission control portion is configured to allow the light-detecting element to detect external light incident on the light-detecting element in a time in which none of the light-emitting chips emit light, and the light intensity adjustment portion adjusts from a first to a second non-zero value the current

applied to each of the light-emitting elements by use of the detection signal based on external light, in the combination with the light emitting device as claimed in claim 7.

Claims 3, 4, 6 and 8 are allowed by virtue of their dependency.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
